

**Comfort, Savings, and Sustainability in Every Hubble Home**

**Your New Hubble Home includes: 3rd Party Inspection & Certification  
with both ENERGY STAR® and HERS® Certification and Rating**

With having an ENERGY STAR® Certified New Home, you can be confident that it will deliver and has been built better from the ground up. ENERGY STAR® ensures your home will save money and protect our climate through superior energy efficiency. The Residential Energy Services Network or RESNET provide Home Energy Rating System (HERS®) Scores that are independently tested and scored to show home buyers the efficiency measures that have been built into the home.

#### **Thermal Enclosure**

HomeGuard® House Wrap  
Energy Efficient Windows  
Energy Star Insulation

#### **Heating & Cooling**

Energy Efficient HVAC System  
Programmable Thermostat  
Energy Efficient Ventilation  
Power Ventilated Crawl Space

#### **Lighting & Appliances**

100% LED Lighting Standard  
Energy Star Appliances  
Smart Home Network Panel

## Enhancing Comfort with Energy-Efficient Design

**Built for Better Living.** Your new Hubble home is built with energy-efficient features designed to enhance comfort, improve indoor air quality, and provide long-term savings. From better insulation and advanced HVAC systems to space-saving innovations, every detail is crafted with your well-being in mind.

### Comfort

- + Insulated Plumbing**  
Prevents heat loss, reduces pipe freezing risk, and minimizes noise.
- + Ultra High Efficiency Windows**  
Keeps your home comfortable year-round, keeping you cool in the summer and warm in the winter.
- + Blown-in Cellulose Insulation (R-23 Walls & R-49 Ceiling)**  
Enhances soundproofing and prevents heat loss.
- + 2-Stage HVAC System**  
Delivers consistent comfort with better air filtration and quieter operation.
- + Insulation Dams**  
Helps maintain indoor temperatures, reduces noise, and prevents condensation build-up.
- + Thickened Floor Sheathing**  
Reduces floor deflection and squeaks while improving soundproofing.
- + Tankless Water Heater**  
Provides endless hot water while using less energy.

### Health

- + ERV System**  
An energy recovery ventilation system that improves indoor air quality by providing continuous fresh air, while reducing dust, allergens, and odors.

### Peace of Mind

- + Enhanced Roof Framing**  
Prevents moisture buildup and enhances insulation effectiveness.
- + Siding & Paint Protection**  
Seals cut edges for added durability and weather resistance.
- + Enhanced Stone & Brick Building Systems**  
Adds moisture resistance, reduces drafts, prevents cracking, and ensures proper drainage, keeping you warm and dry.
- + Enhanced Flashings**  
Adds moisture resistance, prevents cracking, and ensures proper drainage.
- + Enhanced Waterproof Systems in the Bathrooms**  
Introduction of thermo-ply backing prevents warping and moisture damage while reinforcing structural strength, and keeps insulation tucked tightly in place.

### Certified Energy Efficiency

Every home is 3rd-party inspected and certified with both ENERGY STAR® and HERS® Certification & Rating, ensuring exceptional energy performance and efficiency.

**Smarter Living.  
Lower Bills.  
Lasting Value.**
